

# The \$27 million dollar Doak Campbell deal was about **knowing right from wrong.**

**Alerte Marcelin**  
ADNER WITH HIS MOM

*"My mom went through a lot to put me through school and give me the opportunities in life that I've been lucky to have. But the most important thing she taught me was to always do the right thing.*

*I thought about what would my mom do, I thought about all the things we'd lose. I thought about all of the dreams that would never be, about the small business that wouldn't ever become a medium-sized business. I thought about the things that will never happen from that deal, and I knew I had to speak up, that's what my mom would do."* - ADNER MARCELIN

## Values That Guide Adner

Raised in a poor household by two Haitian immigrants formed Adner's outlook on the world. His upbringing taught him how to know right from wrong.

City Hall is long overdue for common-sense leaders who will work for everyday people like Adner's family and so many across our community.

**On Doak, Adner did the right thing. Adner stood with us.**

# Their Vote Cost Us More Than \$27 Million Dollars

“ When Diane Williams-Cox gave 27 million of our tax dollars for Doak Campbell Stadium, she really gave away much more than that. She gave away the dreams of our small and medium size business owners who were counting on that money to help their businesses grow. ”
